Gas Fireplace

Available in two models, Standard and Deluxe, the Pyrotech glass fronted space heater heats up to 100m² of living space and is designed in Australia to suit the renovation of an existing fireplace, a brand new flush finish or mantel structure, or a free standing unit with an exposed flue. With a unique double glazed front that ensures an uninhibited view of the realistic large-area, random coal and log, or pebble configurations, the Pyrotech is a great looking and practical heating solution for any home.

Perfect heating solution

The Pyrotech fan forced convection design is convenient, economical and safe. All Real Flame gas fires are fitted with the latest in safety technology, including flame failure devices which are incorporated into the Pyrotech to ensure your families safety. Trim and louvres are available in stainless steel or matt black, with a choice of coal and log or pebble configuration.

The Standard model comes with millivolt on/off function, 2 speed fan and Piezo ignition. The Deluxe model comes with full remote control including thermostatic controlled modulating burner, auto function 2 speed fan, electronic ignition and four session, seven day programmable timer.
